Brilliant colors at a brilliant price

When color accuracy and affordability are key, choose the Christie® D13WU-HS or D13HD-HS 1DLP® laser projector. Producing 13,000 lumens, HD or WUXGA resolution and featuring patented Christie BoldColor™ Technology, visuals are vibrant and true to life when compared to standard laser phosphor projectors. With built-in, camera-based warping and blending, these projectors are easy to set up, whether on their own or as part a multi-projector array. Their compact and lightweight form factor, omnidirectional capabilities, and optional rigging frame make the D13WU-HS and D13HD-HS perfect options for challenging installation spaces.
