

Overview

This high-performance I/O rack features 16 analog inputs and 8 analog outputs, and is compatible with Yamaha CL and QL series consoles as well as the RIVAGE PM series. The Rio1608-D2 connects directly to Dante digital audio networks, allowing flexible system configuration. Dual power supply units are built in for high reliability, and a character/graphic display offers easy visual confirmation.

REAF

Features

- 16 analog inputs and 8 outputs.
- Redundant connections are supported with primary and secondary connectors. Daisy chain connections are also supported.
- Comprehensive display and local control of gain and other parameters.
- Dual power supply units are built in for high reliability.
- Power consumption: 72 W
- Dimensions (WxHxD): 480 x 132 x 368 mm (18.9" x 5.2" x 14.5")
- Net Weight: 9.6 kg (21.2 lbs)

Architectural and Engineering Specifications

The Yamaha Rio1608-D2 shall be a 3U-size I/O rack with 16 balanced analog mic/line inputs and 8 balanced analog line outputs. It shall have built-in Dante digital audio networking capability with primary and secondary network connections for reliable, flexible system setup and configuration. The head amplifiers in multiple Rio1608-D2 I/O rack units shall be remotely controllable from compatible Yamaha digital mixing consoles. A character and icon based display shall be provided for direct editing and confirmation of Dante, gain, high-pass filter, phantom power, and other settings from the I/O rack interface. The display shall also provide metering functionality. The Rio1608-D2 shall include a Gain Compensation function that digitally compensates for analog gain changes so that audio is sent to the network at a constant level when the Rio1608-D2 is being controlled from multiple consoles. An "R Remote" software application that allows remote control of R series I/O rack head amplifiers from a computer shall be provided. Dual reduntant power supplies shall be built in to maximize reliability and minimize the chance of downtime due to power loss. Dimensions shall be 480 (W) x 132 (H) x 368 (D) mm. Weight shall be 9.6 kg.
